1. Prevent Scheduling of an Inspection when a Balance is Owed.

Summary

Client requested to not allow any inspection to be scheduled when a balance is owed on the application. Also inform the user of why the inspection could not be scheduled.

Record Types / Entities

Record Types / Entities	<Configuration elements>	<Test Records>
Building/Residential/New/*		

Business Rules

The following business rules criteria must be met in order to successfully implement this EMSE script.

Criteria:

1. An inspection is scheduled. The script will perform the following steps:
2. **Note:** Use InspectionMultipleScheduleBefore

STEP 1 -> Balance: Check that the balance is greater than \$0.

STEP 2 -> Prevent the Scheduling of the Inspection: If the balance is greater than \$0 then do not allow the scheduling of the/any inspection.

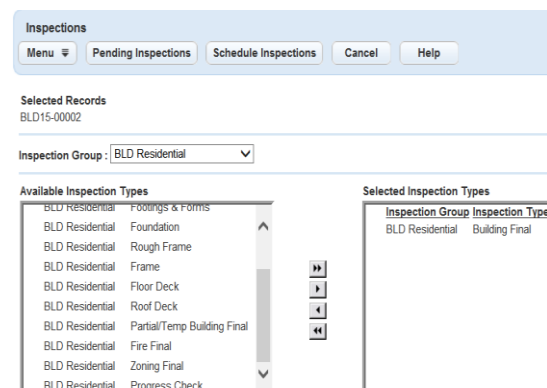

STEP 3 -> Message: Display a message to the end user that the inspection was not scheduled because there is a balance owed.

Screenshots

The following screenshots are provided to give additional information about the configuration and expected actions of the EMSE script to be developed.

Screenshot 1: Inspection

Following inspection is not scheduled

The screenshot shows the 'Inspections' application interface. At the top, there are buttons for 'Menu', 'Pending Inspections', 'Schedule Inspections', 'Cancel', and 'Help'. Below these, the 'Selected Records' section shows 'BLD15-0002'. The 'Inspection Group' is set to 'BLD Residential'. The 'Available Inspection Types' list includes: BLD Residential Footings & Forms, BLD Residential Foundation, BLD Residential Rough Frame, BLD Residential Frame, BLD Residential Floor Deck, BLD Residential Roof Deck, BLD Residential Partial/Temp Building Final, BLD Residential Fire Final, BLD Residential Zoning Final, and BLD Residential Progress Check. The 'Selected Inspection Types' section shows 'BLD Residential Building Final'.
